# Nonresponsive

As it sits now we can buy 210 laptops but only 184 are needed to get us to the 4 year refresh cycle. With the upcoming inquiry into the animas issue I think our need for high pressure av support will increase this year. Also document production and FOIAs are going to be a heavy load. We got 4 big ones in this weekend.

A lot to consider and quickly huh??

# Nonresponsive

Have fun and hope you are relaxing.
